All about the "Three Battlefields of Russia"

«Three Battlefields of Russia» is a cultural project aimed at studying the three major events in Russian history – the battles of Kulikovo, Borodino and Prokhorovsky fields, where the decisive victories were won. The idea of the project goes back to 2003. In 2013 the first season of the project was started. Over 10 years, more than 53 thousand people and more than 37 educational institutions of the city have participated in the project.

The project is held annually and lasts throughout the academic year. Since 2013, the project has been implemented with the support of the Deputy Chairman of the Duma of the Khanty-Mansiysk Autonomous Okrug – Yugra Alexander Salnikov.

Throughout the project, participants have several quizzes and essays "Russian Lessons". Quizzes are conducted remotely or in person. The essay "Russian Lessons" allows you to give your opinion in the form of an essay.

I'm sure the project is of vital importance especially for teenagers. With its help we understand better the history of our Motherland. Without knowing the history, a person can not exist as the representative of the nation.
